

Central Bank of Ireland – Our Strategy

Our world is changing, bringing **new opportunities and threats**.

To meet the **challenges of a changing world**, Central Bank of Ireland has **developed a new strategy**.

Our strategy has four separate – but connected – themes.

1. Future-focused

We will adopt a **forward-looking** approach. This will enable us to **anticipate and respond** to changes in the **economy and the financial system**.

2. Open & Engaged

A priority for us is to **listen to what matters to you** and respond to your concerns.

In doing so, we can **build trust** in Ireland's financial system and **understanding of our role**.

3. Transforming

In a changing world, we need to **transform how we operate**.

We will **reimagine how we work** and become a more **agile, diverse and intelligence-led** organisation.

Harnessing our **people, data and technology** will help us do this.

4. Safeguarding

Safeguarding is at the **core of what we do**.

This means stable prices, a resilient financial system and **protecting the best interests of consumers**.

Gabriel Makhoulf, Governor, Central Bank of Ireland:

Our strategy recognises the changing landscape, and the need for us at the Central Bank of Ireland to change the way we work and what we work on. But it also recognises that we are building from strong foundations.

This strategy will enable us to deliver our statutory functions and our mission and our vision.

By being responsive and agile, we can meet the challenges of a rapidly changing world, and continue to meet our constant and predominant aim: the welfare of the people as a whole.
