

## Title: How do you like to pay for things?

**Participant 1:** I prefer to pay by card and sometimes I have my cards in my phone. So it's more comfortable just to tap with a phone and you don't have to open your wallet. So right now I barely use cash.

**Participant 2:** I usually use my phone to pay. It's like without contact I do it mostly and when it's like above I use my card, but I never use cash. I never use cash.

**Participant 3:** It depends where I am and what I'm doing but often card now. It's just a post COVID thing you just don't necessarily have it in your pocket.

**Participant 4:** Usually tap. I was cards for so long - just cash - for so long and then like lockdown and stuff I was like I guess I'll finally get a card that works.

**Participant 5:** Yeah, like, I suppose I use card more because it's kind of more handier. There's a lot of, like, smaller companies that prefer to get money, so I would try to use money for them if that's what they prefer.

**Participant 6:** Mainly by cash if I can but it's not possible all the time which I don't like.

**Participant 7:** It just depends on the situation I'm in. If I need to pay cash, I pay cash. But if I can, I prefer to use tap.
